SPB Inter College, Kolhui Maharajganj | 2019 – 2021
- **Secondary (10th), Science**
KHS School, Kolhui Maharajganj | 2017 – 2019

SKILLS

- | | |
|-------------------|---------------|
| • Java | • CSS |
| • Python | • Javascript |
| • Data Structures | • Reactjs |
| • HTML | • Tailwindcss |

TRAINING AND CERTIFICATION

Data Analytics Using Python

January 2024 - April 2024

Shape my skills

IMSEC

- Gained hands-on experience in Python-based data analytics techniques.
- Learned the fundamentals applications of Python for data analytics.
- Implemented Linear and Logistic Regression models using Python.

PROJECTS

PORTFOLIO WEBSITE

- Developed a responsive portfolio website using React (Vite) and Tailwind CSS.
- Integrated a dark mode toggle and smooth animations for enhanced user experience.
- Built with reusable components to ensure scalability and maintainability.
- Optimized for cross-device compatibility with a mobile-first approach.

FOOD DELIVERY APP (FRONTEND)

- Built a responsive food delivery web application using React and Tailwind CSS.
- Enabled users to browse a dynamic menu, add items to a cart, and review orders before checkout.
- Designed a clean and intuitive user interface focused on enhancing overall user experience.
- Executed reusable components and responsive design for seamless performance across devices.

GEMINI CLONE

- Enhanced a responsive AI chatbot using React and Google's Gemini API.
- Applied prompt history, markdown rendering, and state management with Context API.
- Integrated safety filters to manage sensitive content and ensure smooth user interactions.
