- **Secondary (10th), Science**
KHS School, Kolhui Maharajganj | 2017 – 2019

SKILLS

- Java
- Python
- Data Structures
- HTML
- CSS
- JavaScript
- Reactjs
- tailwindcss

TRAINING AND CERTIFICATION

Data Analytics Using Python

January 2024 - April 2024

Shape my skills

IMSEC

- Gained hands-on experience in Python-based data analytics techniques.
- Learned the fundamentals applications of Python for data analytics.
- Developed and implemented Linear and Logistic Regression models using Python.

PROJECTS

FOOD DELIVERY APP (FRONTEND)

- Built a responsive food delivery web application using React and Tailwind CSS.
- Enabled users to browse a dynamic menu, add items to a cart, and review orders before checkout.
- Designed a clean and intuitive user interface focused on enhancing overall user experience.
- Executed reusable components and responsive design for seamless performance across devices.

GEMINI CLONE

- Developed a responsive AI chatbot using React and Google's Gemini API.
- Applied prompt history, markdown rendering, and state management with Context API.
- Focused on delivering a clean UI, high performance, and mobile responsiveness.
- Integrated safety filters to manage sensitive content and ensure smooth user interactions.
